

## DONATION GUIDELINES

Want to donate an item? Please consider our criteria:

- 1. Is it in good working order and are all parts included?**
- 2. Is it easy to transport, store and clean (if applicable)?**
- 3. Is it safe to use?**

If your items meet our criteria, please send a Facebook message to The Share Shop with **a photo of each item.**

We'll get back to you as soon as possible to organise drop off or collection. While we would love to accept every offer, we sometimes need to say no due to suitability, overstock of the item, storage capacity or insurance requirements.

Please see our inventory wish list for ideas of the types of items we would like to stock. Don't worry if your item isn't on the list, we may not have thought of it!

Donated items become property of the Share Shop so if you wish to use something you donate you will need to be a borrowing member, and unfortunately sometimes the item may be on loan to another member! We will do our best to ensure we have multiples of items that prove popular but as we are just starting, we don't know what they are yet.

Items consistently not being borrowed may be sold and the money used to support The Share Shop or donated to charity.
